

Night Hawk Dairy

Night Hawk Dairy is a 1000 cow holstein herd located in Stratford, WI, owned by cousins Jim and Chris Leick. We are a very progressive dairy with high milk and component production. Most of the facilities have been recently constructed after combining separate operations. On the farm there are group and automatic calf feeders with all calves being genomic tested. We strive to raise the best replacement heifers possible and breed about 70% of milk cows to beef.
